tract, including those that can be affected by the kidneys such as kidney stones and obstruction.

Nephrologist Vs. Urologist: What's the Difference ...

Urologists and nephrologists both treat

Where To Download

kidney problems. Urologists are surgical specialists who focus on anatomical or structural disorders of the kidneys and urinary tract. They treat problems such as kidney stones, kidney

Where To Download

blockages, and kidney cancer. Urologists are qualified to perform surgery and outpatient medical procedures to correct such conditions.
