Introduction. In its recent judgment of Sevilleja v Marex Financial Ltd [2020] UKSC 31, the Supreme Court of the United Kingdom ("Supreme Court") restated the rule against reflective loss ("No Reflective Loss Rule"). It held that the No Reflective Loss Rule would only bar the claims made by shareholders against wrongdoers who committed wrongs against and caused loss to the company, which in ...

This book is intended to be a comprehensive treatise of Guernsey trust law providing answers for practitioners advising on Guernsey trusts and trustees administering them. In particular, it provides a detailed analysis of the provisions of the Trusts (Guernsey) Law 2007 (as amended), a consideration of Guernsey trust cases as well as relevant cases in Jersey and in other jurisdictions, and analysis of the legal principles underpinning Guernsey trust law. Where there is no clear Guernsey authority on a particular point of law it gives a reasoned view, drawing on relevant legal principles, together with a broad assessment of the confidence of which the authors hold that view.

This text is the first comprehensive guide to litigating trust disputes in Jersey, bringing together analysis of substantive Jersey law, civil procedure and the remedies available to parties appearing in trust litigation before the Royal Court of Jersey. The book is an indispensable tool for trust professionals and legal practitioners with clients that have an exposure to a trust structure in Jersey, whether through a trustee, a beneficiary or a protector, enforcer or other power holder. This book is also of importance to matrimonial, criminal or insolvency practitioners seeking information or documents for the purposes of foreign proceedings and those seeking asset recovery or enforcement against assets subject to Jersey trusts.

The legal regulation of company shares is a fundamental building block in a capitalist society. This insightful book provides an historical analysis of the phenomenon, investigating underlying policy issues and considering relevant aspects of current law to explore possible future trends. David Milman examines the phenomenon of the company share in a holistic way, tracing the origins of the share and exploring the diversity present within the family of shares. Using a comparative approach, key chapters consider the circumstances under which shares are acquired, the property law perspective relevant to shares and the rights and obligations of those who hold shares. The book concludes with speculation on how the share might evolve in the future in light of technological change and the development of other capital raising investments. This accessible book will provide valuable insight to scholars researching corporate law. It will also be beneficial for policymakers and practitioners wishing to understand more about the history of the company share, and how this may impact its future.

At heart, transportation policy and research are about people: connecting individuals and the places they live, ensuring sufficient and equitable access, and facilitating movement. Whether at the regional, city, or neighborhood scale, the loss of population presents unique challenges where transport is concerned. It is not only about preservation of existing access, but possibly even a question of increased need for connectivity and mobility. Demographic changes that accompany depopulation—aging for example— also impact existing systems, preferences, and needs. High quality and focused contributions on a complex and urgent topic A clear focus on qualitative analyses and mixed method approaches
