This book provides an overview of the theory, practice and context of entrepreneurship and innovation at both the industry and firm level. It provides a foundation of ideas and understandings designed to shape the reader's thinking and behaviour to better appreciate the role of innovation and entrepreneurship in modern economies, and to recognise their own abilities in this regard. The book is aimed at students studying advanced levels of entrepreneurship, innovation and related fields as well as practitioners (for example, managers, business owners). As entrepreneurship and innovation are largely indivisible elements and cannot be adequately understood if studied separately, the book provides the reader with an overview of these elements and how they combine to create new value in the market. This edition is updated with recent international research, including research and examples from Europe, the US, and the Asia-Pacific region.

The second installment in The Wolf Chronicles finds Kaala struggling with the consequences of forming the first mixed wolf-human pack.

This book constitutes the thoroughly refereed post-conference proceedings of the 11th IFIP WG 6.11 Conference on e-Business, e-Services and e-Society, I3E 2011, held in Kaunas, Lithuania, in October 2011. The 25 revised papers presented were carefully reviewed and selected from numerous submissions. They are organized in the following topical sections: e-government and e-governance, e-services, digital goods and products, e-business process modeling and re-engineering, innovative e-business models and implementation, e-health and e-education, and innovative e-business models.

From the people who turned teacher education on its ear in Australia in 2001 comes a text about preparing the next generation of teachers. Richard Smith and David Lynch, two of Australia's leading teacher education researchers and the architects of the acclaimed Bachelor of Learning Management program (BLM), take their previously published ideas about teaching and teacher education further to detail a new paradigm in the preparation of teachers. Drawing on 30 years of teacher education research and their own experiences in redeveloping teacher education in Australia, Smith and Lynch explore what it means to be a teacher in the 2000s, outlining a new vision for the preparation of teachers in a Knowledge Age.

Passion is on the cards for two reckless rogues as K. J. Charles ups the ante in her Society of Gentlemen series with a sizzling eBook short story. The youngest son and the blackest sheep in his family, Lord Gabriel Ashleigh never imagined he could sink so low. Though he's a notoriously bad gambler, he takes on the formidable but strangely alluring Francis Webster, only to lose everything: all his money, the lovely estate he inherited from his aunt, and any hope of future happiness. So it's a shock when Webster summons him to a private game for a chance to win back his possessions. The stake? If he fails, Ash must surrender his body. Francis has been waiting years for this moment. At Eton, Ash's elder brother harassed him relentlessly. Now, consumed by lust and rage, Francis is only too happy to exploit Ash's foolish indiscretions. But as Francis strips the magnificently built youth-first of his family assets, then his clothes—he begins to wonder whether he's been plotting revenge . . . or exquisite seduction. And look for the enticing Society of Gentlemen series by KJ Charles: THE RUIN OF GABRIEL ASHLEIGH | A FASHIONABLE INDULGENCE | A SEDITIOUS AFFAIR | A GENTLEMAN'S POSITION Don't miss any of the captivating Sins of the Cities novels: AN UNSEEN ATTRACTION | AN UNNATURAL VICE | AN UNSUITABLE HEIR Praise for The Ruin of Gabriel Ashleigh "Oh my goodness, this short story was so gloriously sexy!"—Just Love Includes a special message from the editor, as well as an excerpt from another Loveswept title.

This fresh new text introduces IB from a truly global and contemporary perspective. Packed with case studies drawn from an impressive spectrum of countries, International Business enables students to link theory with practice and encourages critical thinking. Particular emphasis is placed on key issues such as the growing role of SMEs and entrepreneurship in IB, ethics, CSR, corporate governance and global warming.

With a quality management system (QMS) based on ISO 9001 - the world's most established quality framework - you can ensure the quality of the products and services your company provides, thereby enhancing customer satisfaction and increasing profitability. ISO 9001:2015 - A Pocket Guide provides a useful introduction to ISO 9001 and the principles of quality management.

The “H” in the H factor stands for “Honesty-Humility,” one of the six basic dimensions of the human personality. People who have high levels of H are sincere and modest; people who have low levels are deceitful and pretentious. It isn’t intuitively obvious that traits of honesty and humility go hand in hand, and until very recently the H factor hadn’t been recognized as a basic dimension of personality. But scientific evidence shows that traits of honesty and humility form a unified group of personality traits, separate from those of the other five groups identified several decades ago. This book, written by the discoverers of the H factor, explores the scientific findings that show the importance of this personality dimension in various aspects of people’s lives: their approaches to money, power, and sex; their inclination to commit crimes or obey the law; their attitudes about society, politics, and religion; and their choice of friends and spouse. Finally, the book provides ways of identifying people who are low in the H factor, as well as advice on how to raise one’s own level of H.

This book constitutes the refereed proceedings of the 8th International Conference on Grid and Pervasive Computing, GPC 2013, held in Seoul, Korea, in May 2013 and the following colocated workshops: International Workshop on Ubiquitous and Multimedia Application Systems, UMAS 2013; International Workshop DATICS-GPC 2013: Design, Analysis and Tools for Integrated Circuits and Systems; and International Workshop on Future Science Technologies and Applications, FSTA 2013. The 111 revised papers were carefully reviewed and selected from numerous submissions. They have been organized in the following topical sections: cloud, cluster and grid; middleware resource management; mobile peer-to-peer and pervasive computing; multi-core and high-performance computing; parallel and distributed systems; security and privacy; ubiquitous communications, sensor networking, and RFID; ubiquitous and multimedia application systems; design, analysis and tools for integrated circuits and systems; future science technologies and applications; and green and human information technology.
