Hitachi was founded in 1910 by electrical engineer Namihei Odaira in Ibaraki Prefecture. The company's first product was Japan's first 4-kilowatt (5 hp) induction motor, initially developed for use in copper mining. The company began as an in-house venture of Fusanosuke Kuhara's mining company in Hitachi, Ibaraki. Odaira moved headquarters to Tokyo in 1918.

This important, pioneering book collates our knowledge of large groups, both at a theoretical and practical level. Thirteen distinguished contributors offer experiences from a wide range of disciplines and settings. Roughly half the chapters are psychoanalytic in their orientation; other contributions derive from general psychiatry, sociology, anthropology and industrial psychology. The place of large-group therapy is still to be defined, but it is hoped that this book will contribute to the careful and detailed assessment that is necessary to fulfill its

Sandra Chastain's vividly realized characters transcend time, in a scorching story of romance, destiny, and transporting pleasure. In the library of her overprotective father, Carolina Evans is enchanted by an antique journal—written by another Carolina who disappeared at sea long ago—about a magnificent galleon christened The Scarlet Butterfly. When she reads in the newspaper that a reclusive millionaire has resurrected the nineteenth-century ship from the bottom of St. Mary's River, the sheltered blonde leaves her troubles behind in Texas and heads for the Georgia coast. But has Carolina been drawn to the water's edge by the spirit of adventure . . . or by a supernatural passion calling out from another age? After the tragic death of his sister, Sean Rogan dissolved his family's corporation, turned his back on the world, and closed his heart. He never expected to fall for a woman like Carolina, who inexplicably wakes up in his bed. How has she managed to stow away on his ship? Her explanation—that a pirate's ghost carried her aboard—makes no sense. As they dive for answers in The Scarlet Butterfly's haunted past, what they find is a timeless love as powerful as the tides. Includes a special message from the editor, as well as excerpts from these Loveswept titles: Taking Shots, Along Came Trouble, and Hell on Wheels.

Third Sister in the Tao family, Ailin has watched her two older sisters go through the painful process of having their feet bound. In China in 1911, all the women of good families follow this ancient tradition. But Ailin loves to run away from her governess and play games with her male cousins. Knowing she will never run again once her feet are bound, Ailin rebels and refuses to follow this torturous tradition. As a result, however, the family of her intended husband breaks their marriage agreement. And as she enters adolescence, Ailin finds that her family is no longer willing to support her. Chinese society leaves few options for a single woman of good family, but with a bold conviction and an indomitable spirit, Ailin is

determined to forge her own destiny. Her story is a tribute to all those women whose courage created new options for the generations who came after them.

This book is a contribution to the theme of change and continuity from the Ottoman Empire to the Turkish Republic, as well as an analysis of means of resistance to foreign occupation.

Eighty years have passed since Mustafa Kemal Ataturk founded the Turkish Republic out of the ruins of the Ottoman Empire and set it on the path of modernisation. He was determined that his country should be accepted as a member of the family of civilised nations. Today Turkey is a rapidly developing country, an emergent market and a medium-sized regional power with the second strongest army in NATO. It is an open country which attracts millions of tourists, thousands of foreign businessmen and hundreds of researchers. They enjoy Turkish hospitality and experience its rich landscape and history, but many find it hard to form an overall picture of the country. In this sequel to his acclaimed biography of Ataturk, Andrew Mango provides such an overall portrait, tracing the republic's development since the death of its founder and bringing to life the Turkish people and their vibrant society. The Turks Today interprets the latest academic research for a broader audience, making this highly readable book the authoritative work on modern Turkey.
