As the number of community pools and waterparks grows nationwide, participation in aquatic activities is also growing. Lifeguards must receive proper and effective training, and maintain their skills to ensure their ability to work effectively with others as a part of a lifeguard team. This manual will supplement your in-service training to keep your knowledge and skills sharp.

Discusses the history and techniques of swimming and diving, safety rescue techniques, and skills for a variety of aquatic activities.

If you're looking for a book that combines great fun with solid learning, then look no further! Water Learning contains fun-filled water activities that help children develop cognition, perceptual-motor abilities, physical fitness, social interaction skills, and self-esteem. Even though all of the 95 activities use water in some way, this book includes 51 activities in which a pool is not necessary, making this a wonderful resource for any setting. This book is not a "how to swim" book, but rather a guide filled with activities that can be -an integral part of physical, occupational, or recreational therapy; -integrated into traditional aquatic programs; and -used at home under the guidance of parents. With this book, any adult can be a water learning facilitator. Using a movement exploration format and a problem-solving approach, the activities have success integrated into them. These activities are easy to stage, practical, and engaging; they also enhance the growth and development of all elementary-age children, particularly those with special needs. In part I, you learn how water can both stimulate and enhance a child's growth and development. The author presents guidelines for establishing a safe, problem-solving learning environment and outlines how water learning can help children with special needs. You also learn how to set up and initiate a safe, fun, and effective water learning program. Part II presents water activities for the pool as well as for places where pools are not available. An activity finder provides an index to help you locate activities specific to the learning needs of the child. Also included is an equipment index so you can quickly locate activities that use the equipment that you have available. Part II also explores planning and assessment issues that you will find useful in individualizing activities for different children. Water Learning is a great tool to use whether you're a parent, a classroom teacher, a therapist, or swimming instructor. With its easy-to-use format, its adaptability and multiple uses, and its engaging and fun activities, Water Learning is an ideal resource to help children develop the cognition, motor skills, and abilities they need. The e-book for Water Learning is available at a reduced price. It allows you to highlight, take notes, and easily use all the material in the book in seconds. The e-book is delivered through Adobe Digital Editions® and when purchased through the Human Kinetics site, access to the content is immediately granted when your order is received. Adobe Digital Editions® System Requirements Windows -Microsoft® Windows® 2000 with Service Pack 4, Windows XP with Service Pack 2, or Windows Vista® (Home Basic 32-bit and Business 64-bit editions supported) -Intel® Pentium® 500MHz processor -128MB of RAM -800x600 monitor resolution Mac PowerPC -Mac OS X v10.4.10 or v10.5 -PowerPC® G4 or G5 500MHz processor -128MB of RAM Intel® -Mac OS X v10.4.10 or v10.5 -500MHz processor -128MB of RAM Supported browsers and Adobe Flash versions Windows -Microsoft Internet Explorer 6 or 7, Mozilla Firefox 2 -Adobe Flash® Player 7, 8, or 9 (Windows Vista requires Flash 9.0.28 to address a known bug) Mac -Apple Safari 2.0.4, Mozilla Firefox 2 -Adobe Flash Player 8 or 9 Supported devices -Sony® Reader PRS-505 Language versions -English -French -German

Water has always been a big part of my mother's life. She spent summer after summer at her neighborhood pools. When she was old enough she became a lifeguard. Throughout my mother's life she has encountered many children who had no idea how to swim. Something had to change and she felt that she could make a difference. My mother got her undergraduate degree from Morgan State University in Baltimore, MD where she took lifeguarding and water safety instruction. She began teaching swimming at 18 for the Red Cross Learn-to-Swim program. After completing College, she taught for only three years before going into the private sector, but made sure she ran and stayed fit. Ultimately, she returned to teaching more than 20 years later. She was able to get her Lifeguard, First-Aid, AED, Lifeguard Instructors and Water Safety Instructor certifications, which she maintained until the present. When I was little I used to love playing in the bathtub. Before I was two years old my mother would have me practice exhaling in the bathtub water. She bought me some colorful stick-on numbers, shapes, and letters which she placed in the bathroom on the tub wall. This became our little nightly play area. By the age of two, I could call out all the numbers from 1-10, name all the colors and shapes on the bath tub, as well as exhale under water while kicking to the count of ten. I was only two years old, and was already prepared to be in an actual pool. There are many reasons why children don't know how to swim today. These reasons include: a fear of water, parents who are fearful of water and are scared for their children to learn, swimming was never important for them to learn, bad experiences or just not having access to do so.

Stewie-the-Duck really wants to go swimming with his friends, but first he must learn the water safety rules.

Since the death of her husband, Anne Dunne and her three children have struggled in every way. In a last ditch effort to save the family, Anne plans an elaborate sailing vacation to bring everyone together once again. But only an hour out of port, everything is going wrong.

The teenage daughter, Carrie, is planning to drown herself. The teenage son, Mark, is high on drugs and ten-year-old Ernie is nearly catatonic. This is the worst vacation ever. Anne manages to pull things together bit by bit, but just as they begin feeling like a family again, something catastrophic happens. Survival may be the least of their concerns. Written with the blistering pace and shocking twists that only James Patterson can master, SAIL takes "Lost" and "Survivor" to a new level of terror.
