Since the laptop works when connected to an external monitor, this means the source of the problem is the LCD itself or the flat ribbon cable connecting to the screen, if not both. You can bring the laptop to a repair center to diagnose the problem directly or you can purchase a new screen from us and hope this resolves the problem.

The first thing we do before any repair is test the NEW 2DS XL to confirm the fault. There is no way to repair the screen other than replacing it. We then have to completely strip the console down so we can fit and seal a new screen and test it out. The NEW 2DS XL then goes to our testing bench where we test all repairs prior to dispatch
