Pavel headed back to Russia in October with news of the land they had found. In November Bering's ship was wrecked on Bering Island. There Bering fell ill and died, and high winds dashed the Sv. Petr to pieces. After the stranded crew wintered on the island, the survivors built a boat from the wreckage and set sail for Russia in August 1742.

The Baltic Millennium Rally was organised by the Cruising Association in the year 2000, which saw Irene and her husband Gordon circumnavigate Scandinavia in their boat Fereale. The COVID-19 pandemic was a bolt from the blue. The world never expected it; neither was it prepared. This is a kind of crisis that most of us are unlikely to experience more than once in our lifetimes. Individuals and companies are trying hard to cope and adapt. The truth though is that we constantly deal with crises in our lives. The consequences of some of these crises are far worse than those posed by the pandemic. Imagine being born in Afghanistan in the 1980s or 1990s or being born to a sex worker in any country. Life itself would be a crisis. Yet, some deal with a crisis with equanimity and courage while some others give up. A crisis can be a great opportunity for innovation. Almost every great innovation has been in response to a crisis of some sort. We have seen this in recent times, and we have seen this throughout history. Sailing through a Storm brings us this hope. An inspiring read, this comprises beautiful stories of women and men who dealt with adversity, how they emerged strong and successful, and how drawing from their lives we too can turn the storm around to make it work for us.

Con warned me on our third date that he planned to sail in his retirement. I fell hard for him anyway. Painfully, I'd learned the value of life when my first husband died suddenly, throwing me passionately into living life now. In the blink of an eye, Con and I were tossing off the lines in Finland, sailing into wild seas, and testing my courage. We were grounded in an ebbing tide; hit by lightning at sea; jibed during colliding weather systems; slept soundly "on the hook" in hurricane conditions; fended off thieves in the middle of the night; and robbed in Russia. We explored sites as old as dust; immersed into remote communities; sailed with dolphins and whales; and fallen in love with the people we met along the way. My pinch-me world begins to crumble as I come to terms with the meaning of home, and family. Hooked on the magic of sailing through life, I'm working through my fears, but there's one fear remaining that I'm not able to control. Life and death revisit my world, and fate plays the final card. I won't fall over from life's challenges, they infuse my spirit.

Sailing Directions 155 (Enroute) covers the East Coast of Russia from the Bering Strait, through the Sea of Okhotsk, to the coast of Korea in the Sea of Japan. Peter the Great created a navy from nothing, but it challenged and soon surpassed Sweden as the Baltic naval power, while in the Black Sea it became an essential tool in driving back the Ottoman Turks from the heartland of Europe. In battle it was surprisingly successful, and at times in the eighteenth century was the third largest navy in the world - yet its history, and especially its ships, are virtually unrecorded in the West.??This major new reference work handsomely fills this gap, with a complete and comprehensive list of the fleet, with technical detail and career highlights for every ship, down to small craft. However, because the subject is so little recorded in English, the book also provides substantial background material on the organisation and administration of the navy, its weapons, personnel and shipbuilding facilities, as well as an outline of Russia's naval campaigns down to the clash with Britain and France known as the Crimean War.??Illustrated with plans, paintings and prints rarely seen outside Russia, it is authoritative, reliable and comprehensive, the culmination of a long collaboration between a Russian naval historian and an American ship enthusiast.??EDUARD SOZAEV is an established Russian naval historian with a number of books to his credit. JOHN TREDREA, his translator, editor and long-term collaborator, is an American ship enthusiast with a life-long interest in the Russian navy.

In the early 1980s, after the sexual revolution and before the explosion of the electronic age, the remote islands of Polynesia begged to be explored. For three experienced sailors who dreamed of sailing through the idyllic South Pacific, it was a perfect time to embark on a quest through some of the most amazing cruising destinations in the world.
