Introduction to the Theory of Computation (3rd Edition ...

Introduction to Solutions. Most chemical reactions occur in solutions. This is because a substance dissolved in a solvent, the solute, will be in its smallest state of subdivision, existing as individual molecules or ions that will increase their ability to react with other molecules or ions. Most chemistry in the body takes place in solution; in the absence of the solution, much of the chemistry of life would not take place.

Introduction to Solutions - CliffsNotes

Introduction to Solutions. More than 70% of the earth's surface is covered by a very important solution—seawater. It is likely that without seawater, no life would exist on Earth. At its simplest, seawater is mostly H_2O . But about 3.5% of seawater is dissolved solids, mostly NaCl but other ions as well.
