If the Urantia Book in its entirety is considered to be an epochal revelation for future ages, then the teachings contained in "The Adventure of Being Human" can be viewed as incremental lessons for human beings living today. The admonitions against pride and arrogance, in favor of self-forgetfulness, are certainly most timely.

'Adventures in Human Being' are a collection of interesting vignettes about the human body by a practicing physician. In eighteen chapters Gavin Francis takes us on a journey from our heads to our feet, explaining through a representative case history of an actual patient how a body organ or system works, adding to the story the often fanciful and metaphysical guesses of physicians in earlier civilizations.

Amplifying the core spiritual teachings of The Urantia Book—a unique and thrilling revelatory book first published in 1955—this guide introduces the two central deity-personalities of the Urantia revelation: Christ Michael—Jesus—and his feminine, coequal consort, Mother Spirit. As the study relates, these two deities maintain intimate contact with their sons and daughters, demonstrating their love through an unprecedented series of teachings. In one short volume, this compilation chronicles Jesus' own awe-inspiring lessons—updated for the 21st century—along with essential introductory and background materials. The wisdom provided here offers heartfelt instructions on the art of living, making a challenging cosmological reference concise and accessible.

We are living in a time "between myth stories" observed such luminaries as Joseph Campbell and Thomas Berry. The classical myths, stories and symbols of our past no longer seem relevant in these difficult times and the new ones that help us to understand ourselves and our place in the world, have yet to be written. Until now....

"Adventures in Human Being, with its deft mix of the clinical and the lyrical, is a triumph of the eloquent brain and the compassionate heart."--Wall Street Journal We assume we know our bodies intimately, but for many of us they remain uncharted territory, an enigma of bone and muscle, neurons and synapses. How many of us understand the way seizures affect the brain, how the heart is connected to well-being, or the why the foot holds the key to our humanity? In Adventures in Human Being, award-winning author Gavin Francis leads readers on a journey into the human body, offering a guide to its inner workings and a celebration of its marvels. Drawing on his experiences as a surgeon, ER specialist, and family physician, Francis blends stories from the clinic with episodes from medical history, philosophy, and literature to describe the body in sickness and in health, in living and in dying. At its heart, Adventures in Human Being is a meditation on what it means to be human. Poetic, eloquent, and profoundly perceptive, this book will transform the way you view your body.

Becoming fully human is a lifelong journey. It can also be an incredible adventure. Here internationally respected depth psychologist, spiritual guide, and personal transformation coach David Benner explores the mysteries of human being and becoming. Drawing on insights from science, philosophy, and forty years of experience integrating psychology and spirituality, he presents concrete steps for living in ways that move us toward wholeness. He also draws on mysticism, the perennial wisdom tradition, interfaith dialogue, and the contemplative Christian tradition, developing a robust spirituality that reveals how we can align ourselves with God's presence in the world.

The dazzling success of The Toaster Project, including TV appearances and an international book tour, leaves Thomas Thwaites in a slump. His friends increasingly behave like adults, while Thwaites still lives at home, "stuck in a big, dark hole." Luckily, a research grant offers the perfect out: a chance to take a holiday from the complications of being human—by transforming himself into a goat. What ensues is a hilarious and surreal journey through engineering, design, and psychology, as Thwaites interviews neuroscientists, animal behaviorists, prosthetists, goat sanctuary workers, and goatherds. From this, he builds a goat exoskeleton—artificial legs, helmet, chest protector, raincoat from his mum, and a prosthetic goat stomach to digest grass (with help from a pressure cooker and campfire)—before setting off across the Alps on four legs with a herd of his fellow creatures. Will he make it? Do Thwaites and his readers discover what it truly means to be human? GoatMan tells all in Thwaites's inimitable style, which NPR extols as "a laugh-out-loud-funny but thoughtful guide through his own adventures."

The central deity-personalities of the Urantia Revelation are humanity's spiritual parents—Christ Michael (or Jesus) and his coequal partner, Mother Spirit. In this sequel to The Adventure of Being Human: Lessons on Soulful Living from the Heart of the Urantia Revelation, the focus is exclusively on Mother Spirit—the all-loving, omnipresent mother of us all. She is the reality behind all of the cherished notions of a divine mother throughout human history as well as the majestic source of the Holy Spirit, and of life itself. In this charming guide you will learn all about her and discover how she regards the unique challenges of being human. She will explain why our lives on this complex and sometimes dangerous planet offer an ideal setting for our adventures of soul growth. This book provides a selection of Mother Spirit's teachings from her many years of "live" transmission sessions, along with rich supporting materials. Her unprecedented and delightful instructions on the art of soulful living are more accessible than ever before.

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

"If I got to be God for one day, I'd like to say I'd end world hunger and create world peace. But I wouldn't. Because if God could fix the big stuff, he'd have done it already." Malin knows she can't fix the big stuff in her life. Instead, she watches from the sidelines, as her dad yells, her brother lies, and her mum falls apart. At least after she meets Hanna, she has a friend to help her. Because being Malin is complicated - learning how to kiss, what to wear to prom, and what to do when you upset the prettiest, meanest girl in school. It's tough fitting in when you're different. But what if it's the world that's weird, not you? A beautiful, funny and honest coming-of-age story that never pretends life is perfect.
