The Fish With the Deep Sea Smile: Brown, Margaret Wise ...

A simple whimsical tale of fishing for a special fish – the fish with the deep sea smile – a group in a boat travel far and wide over the ocean catching all different kinds of wonderful fish as they go. The illustrations are bold and bright and cheerful but no too busy.

The Fish with the Deep Sea Smile by Margaret Wise Brown

Deep-sea fish are fish that live in the darkness below the sunlit surface waters, that is below the epipelagic or photic zone of the sea. The lanternfish is, by far, the most common deep-sea fish. Other deep sea fishes include the flashlight fish, cookiecutter shark, bristlemouths, anglerfish, viperfish, and some species of eelpout. Only about 2% of known marine species inhabit the pelagic environment. This means that they live in the water column as opposed to the benthic organisms that live in
