~~The Human Figure in Motion by Eadweard Muybridge~~

Human Figure In Motion is a huge collection of Muybridge's original works containing over 4700 pictures. These would all be displayed in the famous grid pattern that was first seen with Muybridge's initial experiments and were all shot during his time at the University of Pennsylvania as scientific works examining the, as the title suggest, human figure in motion.

~~?Human Figure in Motion (1884) directed by Eadweard ...~~

The sequences show movement studies of the male or female body in a variety of situations: In the case of men, these are primarily movement phases during the exercise of sports (sprint, running, long jump, high jump, throwing, shot put, baseball, cricket, rowing, wrestling, fencing, boxing), in everyday situations (walking, carrying weights, climbing an ascent, climbing stairs, etc.) or during physical work (marching

with a rifle, forging, digging).
