The Morganville Vampires Vol. 1 is an interesting vampire story when you compare it to other vampire stories that's out on the market - for example Twilight. I like the plot, the fact that the vampires are the bad ones, and that the pack of human main characters that we're following are quite resourceful.

While Morganville, Texas, is often a troubled town, Claire Danvers and her friends are looking forward to coming home. But the Morganville they return to isn't the one they know; it's become a different place—a deadly one. Something drastic has happened in Morganville while Claire and her friends were away. town's residents have evacuated, but Claire, Shane, Eve and Michael have chosen to stay and fight. Using the city's water system to spread, the draug have rapidly multiplied. Now, if Claire and her friends don't figure out how to cure Amelie and defeat the draug, it looks like Morganville will become little more than a ghost town.

Accepted into a special study program at MIT with Professor Irene Anderson, Claire Danvers works on developing a technology to block the mental powers of vampires only to unleash unexpected forces when she tests the machine on live subjects.
