Music has the power to trigger a range of emotions, but increasingly, researchers have suggested it can also offer some amazing health benefits. We investigate.

The power of music: how it can benefit health

Music has the ability and power to influence human thoughts and behaviors. Employers and retail stores use the power of music to produce a desired behavior from their employees and customers. For example, according to The Journal of Marketing , background music is thought to improve the store's image, make employees happier, reduce employee turnover rate, and to stimulate customer purchasing (Milliman).
