Johji Manabe's landmark science-fantasy epic comes to a world-shattering climax as the alien princess, Kahm, finally confronts her father, the omnipotent emperor of the Santovasku Empire. Kahm's devotion to her earthing lover, Tetsuya, cannot be sundered, but is her love enough to stand against the terrifying power of her enraged father? And should Kahm triumph, could she unleash forces that may lay waste to her homeworld, the Imperial Planet of the Santovasku? Also included in this volume are the rare Outlanders Epilogue and the Outlanders Special: Battia's Bane.

She is Karula, Dragon Princess of Ledomiam and sworn to destroy the Romunilian Emperor Gustav. To do so, she must make a pact with a warlock in order to use his enchanted sword, the only weapon capable of striking Gustav down. But wielding the sword has a price, one that may destroy all she loves and help to bring about an even greater darkness over Ledomiam. Johji Manabe produces another epic chapter of the Drakuun saga.

This atlas presents technical information for professionals who process and use temperate or tropical timber. It combines the main technical characteristics of 283 tropical species and 17 species from temperate regions most commonly used in Europe with their primary uses.

Advances in forensic odontology have led to improvements in dental identification for individual cases as well as in disaster victim identification (DVI). New and updated technologies mean advances in bitemark analysis and age estimation. Growth in the field has strengthened missing persons' networks leading to more and faster identifications of unidentified individuals. A product of the American Society of Forensic Odontology, the Manual of Forensic Odontology, Fifth Edition provides comprehensive and up-to-date information involving all facets of forensic dentistry and explores critical issues relating to the scientific principles supporting the field's evaluations and conclusions. New information in the Fifth Edition includes Scientific principles and the need for more and better research in the field Oral and maxillofacial radiographic features of forensic interest Forensic pathology and its ties to forensic odontology New techniques and improved technologies for age estimation Advances in bitemark evidence management Animal bitemarks National and international forensic dental organizations Tips for becoming involved in forensic odontology The manual has been an important source of forensic dentistry information for more than 20 years. This new edition is edited by a past president of the American Board of Forensic Odontology and a past Chair of the Odontology Section of the American Academy of Forensic Sciences. Expanded and enhanced with extensive color illustrations, this volume is designed to provide essential information based on sound scientific principles for experienced forensic odontologists and for those new to the discipline.

It is the wedding the world thought would never happen - two of Greece's oldest feuding families to finally unite. But the marriage is not as it seems. Alesia has been bought by Sebastian. Now all he wants is a child to bind the feuding families. Little does he know that is something Alesia would never give him.

In 1837, while charting the Amazonian country of Guiana for Great Britain, German naturalist Robert Schomburgk discovered an astounding "vegetable wonder"--a huge water lily whose leaves were five or six feet across and whose flowers were dazzlingly white. In England, a horticultural nation with a mania for gardens and flowers, news of the discovery sparked a race to bring a live specimen back, and to bring it to bloom. In this extraordinary plant, named Victoria regia for the newly crowned queen, the flower-obsessed British had found their beau ideal. In The Flower of Empire, Tatiana Holway tells the story of this magnificent lily, revealing how it touched nearly every aspect of Victorian life, art, and culture. Holway's colorful narrative captures the sensation stirred by Victoria regia in England, particularly the intense race among prominent Britons to be the first to coax the flower to bloom. We meet the great botanists of the age, from the legendary Sir Joseph Banks, to Sir William Jackson Hooker, director of the Royal Botanic Gardens at Kew, to the extravagant flower collector the Duke of Devonshire. Perhaps most important was the Duke's remarkable gardener, Joseph Paxton, who rose from garden boy to knight, and whose design of a series of ever-more astonishing glass-houses--one, the Big Stove, had a footprint the size of Grand Central Station--culminated in his design of the architectural wonder of the age, the Crystal Palace. Fittingly, Paxton based his design on a glass-house he had recently built to house Victoria regia. Indeed, the natural ribbing of the lily's leaf inspired the pattern of girders supporting the massive iron-and-glass building. From alligator-laden jungle ponds to the heights of Victorian society, The Flower of Empire unfolds the marvelous odyssey of this wonder of nature in a revealing work of cultural history.

This practical and accessible book focuses on the Written Exercise, which forms a key part of the Police Recruit Assessment Process. The book starts with an overview of the principles of completing a written exercise. It gives clear information on issues of grammar, spelling and punctuation, with examples of common mistakes and questions to check understanding. Full written exercises, in the form of candidate's instructions and the various associated documents, provide essential practice and the intentions of each are explained, identifying the core competencies being tested.

Climate change presents a large, complex and seemingly intractable set of problems that are unprecedented in their scope and severity. Given that climate governance is generated and experienced internationally, effective global governance is imperative; yet current modes of governance have failed to deliver. Hayley Stevenson and John Dryzek argue that effective collective action depends crucially on questions of democratic legitimacy. Spanning topics of multilateral diplomacy, networked governance, representation, accountability, protest and participation, this book charts the failures and successes of global climate governance to offer fresh proposals for a deliberative system which would enable meaningful communication, inclusion of all affected interests, accountability and effectiveness in dealing with climate change; one of the most vexing issues of our time.

The year 167 B.C.E. marked the beginning of a period of intense persecution for the people of Judea, as Seleucid emperor Antiochus IV Epiphanes attempted -- forcibly and brutally -- to eradicate traditional Jewish religious practices. In Apocalypse against Empire Anathea Portier-Young reconstructs the historical events and key players in this traumatic episode in Jewish history and provides a sophisticated treatment of resistance in early Judaism. Building on a solid contextual foundation, Portier-Young argues that the first Jewish apocalypses emerged as a literature of resistance to Hellenistic imperial rule. In particular, Portier-Young contends, the book of Daniel, the Apocalypse of Weeks, and the Book of Dreams were written to supply an oppressed people with a potent antidote to the destructive propaganda of the empire -- renewing their faith in the God of the covenant and answering state terror with radical visions of hope.

The Historical Dictionary of Slovakia offers in its second edition an up to date series of entries on Slovak political, social, and economic development since the creation of the second Slovak Republic in 1993 until its admission into the European Union in 2004.
