the macro level and, in terms of specific features of the FIDIC Silver Book, at certain issues at the micro level. The thesis developed is that owners do not get the turnkey solution they want. This is primarily because a turnkey solution is not as simple as it sounds, due to the inevitable complexities of large projects and the decreased risk appetite of contractors in the global projects arena.

Turnkey Contracting Under The Fidic Silver Book What Do ...  
The FIDIC contracts usually involve "the Engineer", who has a defined role to play during construction - and we assume this is the "different Consulting Engineer" referred to. The "Designing Engineer" could be an engineer engaged by the Employer just to design the Works (with the other Engineer taking over to supervise the Works during construction) - or he could be an engineer engaged by the Contractor if it is a design-build or turnkey type project.

This is FIDIC's recommended form of contract for use on engineering and building works of relatively small capital value or where the construction time is short. FIDIC has provided guidance that this would probably apply to contracts with a value of less than US \$500,000 or a construction time of less than six months.

II. What are the FIDIC Forms of Contract? - CNC Counsel  
Lump sum turnkey (LSTK) is a combination of the business-contract concepts of lump sum and turnkey. Lump sum is a noun which means a complete payment consisting of a single sum of money while turnkey is an adjective of a product or service which means product or service will be ready to use upon delivery.
