Unani medicine, also called Unani tibb, Arabian medicine, or Islamic medicine, a traditional system of healing and health maintenance observed in South Asia. The origins of Unani medicine are found in the doctrines of the ancient Greek physicians Hippocrates and Galen. As a field, it was later developed and refined through systematic experiment by the Arabs, most prominently by Muslim scholar-physician Avicenna.

~~Britannica~~

"Unani" or "Yunani medicine" is the term for Perso-Arabic traditional medicine as practiced in Muslim culture in South Asia and modern day Central Asia. Unani medicine is pseudoscientific. The term Yūnānī means "Greek", as the Perso-Arabic system of medicine was based on the teachings of the Greek physicians Hippocrates and Galen. The Hellenistic origin of Unani medicine is still visible in its being based on the classical four humours: phlegm, blood, yellow bile and black bile, but it ...

Unani medicine is a health system, with its origins in Ancient Greece, but that is nowadays most popular in India. It was introduced to India around 1000 years ago, brought from the Muslims. The development in India was marked by the addition of new drugs to the original system, ending up in a very different version, and some similarities to Ayurveda, the medicine system that exists in India in the last 5000 years, and that is the oldest one known.
